**Summary of Accomplishments July 30, 2008 to September 30, 2008.**

We have begun to verbally advertise and recruit potential schools for inclusion in the implementation of the aquaculture curriculum and to develop new aquaculture programs. We have surveyed many existing curricula and have begun to develop the new aquaculture curriculum. Additionally, we have developed a plan for demonstration facilities at Hillsborough CC and have planned and begun construction to develop demonstration facilities Gainesville.

To date we have completed 25% of the proposed objectives.
